R.Cochiguaz sked: A new S.American stn is going on the air! Uses a drum segment as IS & ID. The drum segment "candombe" is mx w/ typical African root, but is from Uruguay. DJs are: Perico San Miguel, Paco Jerez & Cachito Mamani. I little other info, but the stn is using the BRS add, so it is connected to the world-wide pirate scene. Also, the stn is inspired by, but totally separate from R.Pirana Int. 2/1 (* or 2/8), 2000-0000 UTC on 11413kHz 2/2 (* or 2/9), S.Am pirate channel: 6925 from 0000-0400 UTC.

* if there is problem on 2/1 & 2/2, xmns'll be on 2/8 & 2/9 instead.

The THREE relays this week are R.USA, R.Titanic Int., & Jolly Roger R. Also, check The KIWI RADIO WEEKLY an e-mail nltr via kiwisagb@xtra.co.nz. Check out KIWI's web site at:
<http://www.pp.hogia.net/jonny/fr/kiwi.html>. KIWI has a new QSL, so if you already have 34 of their old card, now you can get a new one!

ATTENTION ALL PIRATE OPERATORS, HERE'S YOUR CHANCE TO HELP THE BLIND!
The National Radio Club is a club specializing in medium wave DXing. They operate a service for the blind called DX Audio Service. Fred Vobbe of The DX Audio Service is doing a feature on pirate radio. He is looking for some people/pirates to interview. The interview can be done by phone, in writing or by cassette. He would also like a short audio clip of the stn. You can contact Fred at Box 5031, Lima, Ohio 45802-5031, 419-228-4199 (tel), 419-221-1609 (fax). Email: gnbc@alpha.wcoil.com.

WJDI CALLS ROBERT ROSS.

Robert Ross rxd a call from the stn recently & gave him the info abt WJDI's recent Xmas Eve bdcst widely heard on 1620 kHz. The xmtr was a homebrew, rated at 15 kw which took over a year to build & was located in NY abt 100 miles west of NY City. The antenna used was a 5 element cage, like they used to use in the early days of radio. The op said it cost over \$500 to build from wire, rope & lexan spacers. It weighed abt 60 lbs & he used a tractor to raise it abt 75 feet, which was not really high enough! The total cost of the xmtr was \$10,000 for this 1-time bdcst. He just wanted to be the highest powered pirate to ever hit the air!
He sed that the xmtr was sold & that this is THE END OF WJDI! They will not return. They made their first bdcst in 1972. The operator requests anyone who hrd the bdcst should send him a report to: WJDI, 570 Ulster Ave., Kingston, NY 12401

Effective immediately, POB 605, Huntsville, AL 35804 should be replaced by the following add: POB 11522, Huntsville, AL 35814. Please update your records. A forwarding order is in effect for any mail still added to the old box number.

PiPa #184 contains logs from FRW #55/56

Lotsa activity this time, but also some personal-revenge stns: Let's Kill JTA R. & KIRK. The goals of these and a few others (CSHT & Fake R.USA) seems to be malice & to get even with someone, no matter what the cost is (to the person or the pirate scene as a whole). These arguments should be dealt with personally, NOT on the air, under any circumstances...AY

ACE MOVE: Kirk Baxter, long-standing pres of the ACE has resigned & has been replaced by Pat Murphy. The new address is: The ACE, Box 12112, Norfolk, VA 23541

From Rainer Brandt: Last year there was a relay of Microdot R. in Europe & I forwarded the tape to a stn here. Now several people in Europe are asking why the stn never answered! Well, if anybody out there knows who is behind the stn, let him know that people in Europe are still collecting QSLs, Microdot's too, hil

The other question is that in PiPa my report for KOLD via KIWI was wrongly given to have taken place on 1/1, but I hrd KOLD via KIWI on 1/5! Aldo sent a splendid QSL for that PiPa log, but with wrong date! As I sent a written rpt too, I highly would appreciate to receive a correct dated QSL instead!

Thanks to everyone who reported this time--
both the old regulars & the newbies. The newbies
incl Kevin Nauta, Claude May, Andy Walker, Chris
Ise, & Brandon Artman (new for #184). Hope
ya'll have fun listening to the pirates! (Andy &
Chris are old, jaded Europirates, so I know that
they already like the pirates).

Great to see some of ya'll @ the Winterfest. Once again about 250 SWLs showed up & abt 25 of those were pirate freaks. The motel was filled with RF (if I get cancer, I know who to sue!). It was a great time hanging out & getting to meet some new folks. Hope to see ya next year...Don't forget about April Fool's Day broadcasts! XEROX has been on the past few years and other stations'll probably show, too!

R.F.London Sked: Over the Easter wknd for abt 96 hours: 3/28 til 3/31 on 3945 & 6400. We installed an aerial @ a new site last week so as soon as the mains goes in, we'll up the juice to abt 90 W on 6.4

Radio Marabu Sked: via IRR5, 3/30, 1900-2000 UTC. "Gittare X Radioshow" w/Marcel Fischer. Also a competition'll be included.

J.D. Stephens sent a note w/correct zip for the new Box: Box 11522, Huntsville, AL 35814.

COMMENTS AND OTHER INFO

Shawn Axelrod-Manitoba. "Three IDs this
weekend. The trip to the bus was gd for pi-
rates but the BCB & long wave was poor.
Only one new one heard. The Radio Zero re-
ception was very clear but had a harsh hum
that would not quit. Weather was gd with
temps around -10 c. Lots more snow this
time but packed nice & hard so walking was
easy."

Books For sale: "Access to the Airwaves"--a biography of Allan Weiner--a guy who started a major pirate in the late 60s & was being followed by FBI agents. After decades of pirating, he created RNI. 246 pages, photos. \$17.95 + \$2 s/h in the US. It's a gt read!

"1997 Pirate Radio Directory" is now available for \$11 + \$2 s/h (+sales tax for PA residents).

"Pirate R. Operations" is now available. It's 376 pages of info & photos about how pirates put a stn together & successfully broadcast. It's mostly intended for pirate listeners, & beginning & intermediate pirates in the US, but if you're an old pirate or from outside of the US, it should still be an interesting read. Cost is \$18 + \$2 shipping in US (add \$1.20 sales tax for Pennsylvania residents only). (list price is \$19.95)

I've finally got more copies of "Pirate Radio: The Incredible Saga of America's Illegal, Underground Broadcasters." This book is 340 pages of info about pirate r., the history, current stations, how to hear pirates, etc. It has an audio CD with about 18 min of audio clips. Cost is \$25 + \$2 shipping in the US (add \$1.62 sales tax for Pennsylvania residents only). (list price is \$29.95)

If you live outside the US & wanna buy a book, drop me an e-mail and I'll check how much it will cost to mail.

If you want to buy either of these books, send a check or mo (payable to Cabinet Communications) to me.

From Chris Ise, Germany: If you like to see some nice pictures of RFL get your sample copy of the last Pirate Connection magazine, you will be amazed by two nice guys showing everything. Warning picture & interview might offend people, so be sure that this is legal in your country to see Zombie material. But I also have a picture of Jodie.....wooww!!

For a different perspective, Andy Walker, UK: The same person behind CWR is the same person who took that "Bloody awful photograph" of myself that is in the latest copy of "Pirate Connection" which makes me look like a Disabled Queer with a Twisted Face !!!!! I think the photo has been tampered with to make me look like an "Frigging Oddball" Therefore I urge everyone NOT to send \$4 to PC, P.O.Box 4580, 20320 Malmoe, Sweden for a copy. If you already have a copy please return it & ask for your money back, pass this info around so others will not buy the magazine. (Also the photo of Terry Phillips makes him look like an extra from a "Zombie Movie") Another good reason NOT to buy PC.

By the way, there's a great write-up on RFL in the latest issue of the UK's "Shortwave Magazine" in the "Off the record" pirate news page. Available at all good newsagents NOW

Along the lines of the Europirate newsletters, it was truly sad to receive the final (!) edition of "FRS Goes DX" from Holland. "FRS Goes DX" was one of the very best Euronewsletters, & it was the oldest of those currently out there (dating back about 15 years). I was a regular columnist for a few years until I ran out of time. I didn't even know that it was going to end, so I missed getting a final column in. Editor, Peter Verbruggen plans to do more work with his pirate stn, FRS Holland in the upcoming year. Good luck!! AY

RADIO FREE LONDON MOVES TO 5805 kHz ON

MAY 18TH!

This is an unusual move for a free radio stn as we are moving totally away from 6 MHz. The new channel has given us very good results over the past two test broadcasts; much better than 6400 or anywhere we have used the 49 meter band, especially when only low power had been used in 5805 which was only 12 watts. The power on 5805 will be going up to 90 W & should give a strong clear signal across the UK & Europe. (This should be fairly easy in northeastern N.America...AY)

COMMENTS.

Shawn Axelrod "Not much time to DX due to having to prepare income tax & celebrating our daughters' 17th birthday. Snow is melting quickly & we are wondering about floods as the waters from MN & ND move north on the Red River. Should be safe in the city but we are only a quarter mile from the river. Hope the dikes & floodway work!"

Really hate to see KAOS go. We bid Joe Mama & Roger Wilco a fond farewell. (Rich & T Jurrens)

If you live on the West Coast & are interested in AM DX, ya might be interested in the International Radio Club of America (IRCA) 1997 convention. It's at the Holiday Inn in Costa Mesa, CA from July 25-27. For more info: Mike Sanburn (310) 614-1444 (tel), POB 1256, Bellflower, CA 90707. Sed all radio hobbyists are welcome...so I assume that pirates are, too.

Radio Marabu will be on the air again with another long time 24 hours transmissions on the coming weekend from Friday May the 2nd starting at 18.00 hours UTC until Saturday the 3rd at 18.00 hours UTC. Due to the raid on RFL we will be on the air via an own transmitter and will use for the first time the frequency of 6305 kHz.

SW Liberation II is now at 73 straight days of SW pirate activity in North America! WOW! Speaking of "WOW!," thanks to everyone for the contributions! 37 contributors to this issue!

Logs from Marina Pappas, Bill Hassig & Ed Rausch for #195 arrived after I had sent out most of the PiPas! Sorry they didn't make it!

Gabriel Ivan Barrera in Argentina checked in w/a log on 7/21 from 0144-0210 UTC on 6955 in English. I'm not sure if this was VoSW R. or someone else. Any ideas?

From Chris Lobdell: WHAT'S WRONG WITH PIRATE RADIO? En Editorial.

"Is it just me or is the current state of short-wave piracy entering a new low in programming or should I say lack of programming? Sure, there has always been the VoNights, The WPIGs & the like, but where are the stns like The Voice Of Laryngitis, K2000, & CSIC these days? Perhaps the lack of FCC enforcement has brought out those who just want to hear themselves on the air.

What social value do stns such as KIRK have? A listing of various defunct stns punctuated by the words "That's Greaat" doesn't seem very entertaining to me. I know some people are mad at Dr. Tornado for hogging the airwaves but does that mean we need a R.Tornado Worldwide? And what about these "NOT" stns. First there was NOT MYSTERY R., now there's NOT RADIO METALLICA. I fail to see the value of NOT being a particular stn. Get your own identity! Sure, there still are great stns around such as R.USA, WREC, R.Azteca, R.Free Speech to name just a few. Maybe I'm getting old & cranky, but there seems to be a lack of talent on shortwave right now. What do you think?"

From John Brewer in NC: "I agree wholeheartedly.... I'd offer that today's less-than-intense enforcement by the FCC has encouraged those who have put less thought & commitment into the risks of bdcstg, to plug in the lcom & click on the CD player to casually get on the air w/very little to say that's unique.

While nothing can be as bad as the "Lad" [VoNight] days (please, don't prove me wrong!!) certain stale efforts such as all the "NOT" stations come close... come on... that was KIND of funny the first time, & is beyond stale now. Is the low risk bdcstg environment allowing less committed bdcstrs on the air these days?"

Jonny Augustsson in Sweden replies: "Well, I agree 100% w/you. Your problem is not unique! Our problem [in Europe] are all those non-identifiers that go on the air for svrl hours w/bd modulation playing non-stop Dutch folk mx. If you are lucky, you might hear a voice w/even worse modulation 10 seconds before close down giving some kind of ID! Is it not fun anymore or has it become something else I don't understand?"

Harold Frodge w/the Michigan perspective: "The state of pirate radio is just like everything else. On SWBC you get DX pgms & you get Brother Stair (I would have used Dr. Gene as an example, but he's too much fun to listen to, especially when he throws one of his ***hole snits on the air). I say, take your best shot & fill the airwaves--I can always turn it off. Now, if you want to get me really started, let's talk about column editors who expect the contributors to do all their editing for them ..or else".

Maryanne Kehoe in GA: "My beef is the "not" stations, i.e., NOT R. Metallica, NOT Radio [fill in the blank]. The Radio Is Not Radio stuff, for example, I couldn't keep up w/who was is not, was is not, never was is not etc The "NOT" stations I think are a lazy excuse by an operator that doesn't/can't/won't come up w/his/her own original ideas. OK I'm done ranting!"

Thanks for the above, any others please feel free to contribute.

From Benton Owsley, CA:

"Have been inactive for awhile... been in Alaska & the Yukon Territory on vacation w/the late daylight hours up there the only pirate we were able to pick up was Radio Metallica Worldwide & this is when we were in Whitehorse YT-Canada. Still w/plenty of sunlight left.... so RMW is doing a excellent job of putting out that sig!!!!"

GOOD NEWS FOR QSL WHORE-HOUNDS:

Two of the most widely heard recent stns are now verifying. As promised, R.Metallica Worldwide QSLs are starting to show up in listeners' mailboxes. And WARR QSLs landed in Michael Folk's & Charlie Crawford's mailboxes this week.

WEINER RADIOSHIP PROJECT MOVES AHEAD.

During an interview on the Howard Stern show July 25th, Allan Weiner said the ocean going tug Electra is being outfitted as a radioship at a shipyard in Boston. Plans are for the ship to be ready to set sail by the end of the summer to a Caribbean location. The email address for info is: MVelectra@aol.com.

Good to hear Weekend Music Radio on 76m last night with proper programming instead of poxy QSO stations who have f***ed up this great band. Ozone Radio are now testing on 5830 and gave a good signal here in London. UK Radio were received with a fair to good signal (for once) here in the south. RFL failed to make it onto 3945 last night due to technical trouble.

I spent over two hours in the FRN chat room last night and some of the US operators are planning a 24 hour network for some time in the future. If anyone is interesting in getting involved let me know and I'll pass it on. I've cracked a deal with two stations to have RFL relayed over there on SW and a local FM pirate station.

WREC WANTS INPUT!!! P.J. Sparks is putting together a "Best Of WREC" show. He'd like your input about your favorite song or parody bit heard on past shows. Let him know what you'd like to hear by writing to either Box 1, Belfast, NY 14711 or Box 109, BRS, PA 17214.

THE GOOD SHIP METALLICA? George Zeller tells us that he has it from reliable sources that Dr. Tornado has moved his 10 kw transmitter onto a boat and is actually transmitting from off the East Coast of the USA! Dr T claims you can hear the sine wave distortion in the audio caused by the generators. George also thinks this is what causes the signal to drift. Let's hope we can confirm this!

THREE MORE For BELFAST:

In case you missed it last week, add LV de Mundano Tiempo, WRYT and Radio Nonsense to the roster of stns using Box 1, Belfast, NY, 14711.

SAME GUY, NEW E-MAIL ADDRESS:

Joe Momma, formerly of Radio KAOS, and now of Radio Nonsense, has changed his e-mail address to Radiononsense@Juno.com.

TAKE IT EASY R. TIES ONE ON IN NZ:

Paul Ormandy reports that Take It Easy Radio was widely heard in New Zealand on September 14, 1997 at 0656 UTC on 6955 kHz.

PIRATE WEBSITES:

It seems that more and more stns are putting on websites. Some of the sites are better than others, of course. A few of the sites are hosted by Rob Keeney's page which can be linked to from the John Cruzan's Free Radio Network site.

Here's a few URLs to check out:

Radio USA:

http://www.frn.net/stns/RadioUSA/index.html

Radio Tornado Worldwide:

http://www.geocities.com/Hollywood/Academy/6955/index.html

KOLD:

http://www.frn.net/stns/KOLD/index.html

K-2000

Rob Keeney's Pirate's Web:

http://www.frn.net/stns/frontdoo.htm

HAVE YOU BEEN LOOKING FOR WMRR?:

If you're looking for this pirate on 1700 kilohertz, be advised that there's also a Highway Advisory Radio stn from JFK Airport in New York on this frequency. It was very strong in the Toronto area

SPECIAL N.A.P.R.S. REACTIVATION QSL:

If you caught one of the R.Azteca bdcsts that were relayed via the temporarily-reactivated North American Pirate Relay Service, Dick Pistek of N.A.P.R.S. has a special "reactivation" QSL for correct reception reports. N.A.P.R.S. can be reached at Box 1, Belfast, NY 14711.

Radio EuroGeek is planning a first anniversary/
Radio StHelena Day broadcast
a couple hours before St.H s/on, 11092.5kHz on
10/26/97.

Nick Sharpe of the UK says that 6955 kHz is
no good in Europe until 23:00 due China Radio
Int using it. And he wonders if the US stations
could try another frequency to hit Europe? With
all of the QRM around 6955 kHz lately, it's a
good idea to move a few kHz away anyway. 6965
is a clear freq that was used some a year or two
ago, for example.

WRX WRX/Weasel Radio Xpress is a new one using
the Huntsville maildrop and using some "new"
frequencies. He's been heard just below 3450
also on 14403. The worst pick was definitely
riding New York Radio, the air-traffic
ground-control station! If you're going to venture
into new territory, be SURE that you're on a
safe frequency. Otherwise, you might cause in-
terference to a vital service AND get busted.

FREE RADIO BERKELEY WINS COURT RULING!
"We kicked their butts" - Stephen Dunifer
Judge Wilken turned down the FCC's request for an injunction, refuted FCC claims that the case was out of her jurisdiction & ordered the FCC to answer questions regarding whether their regulations violate the 1st amendment! The FCC will probably appeal, but this means that FRB will survive at least another yr. [Info: Paul Griffin].

Free Latin American Radio Station is a new pirate station, in this event, from Argentina with his first transmission through RC txr.

GOOD NEWS AND BAD NEWS FOR "QSL WHORES"?

First the bad news. Canada Post is currently on strike, so no mail is coming in or out of the Great White North, in case you were trying to send a report to a station using the Merlin maildrop (or if you were planning on sending a QSL to a Canadian listener).

The good news? Bram Stoker had added several new QSLs to his growing list of over 50 QSL designs. The new designs include "The Punishment for List-Logging" and "Early Greek DXers find a novel use for dish antennae" And more good news. Dean Soundgarden from Lounge Lizard Radio has two new QSLs available in his "Gods of Lounge" series of QSLs: Al Martino and Tom Jones. I can't wait to get my Al Martino QSL!

A NEW STATION TO LOOK FOR IN DECEMBER:
As the holidays approach, be on the lookout for 6YCSS, which will be a joint effort of Count Whip's Caribbean Sound System and Pig Pen Marley's 6YVOS. Sounds interesting!

TAKE IT TO THE LIMIT RADIO USES PROVI-

DENCE!

Providence maildrop op. Joe Filipkowski, wants us to know that this new station can be reached at Box 28413, Providence, RI 02908

Dline for #206: Send logs out no later than 12/22

PIPa #206 contains logs from FRW #99/100 + some more

FRW hits issue number 100! Chris & Niel say "Many thanks to those of you that have sent in your well wishes on our centennial issue. If it wasn't for each and every one of you, there would be no Free Radio Weekly." And no PIPa! Many of the logs in PIPa are compiled from FRW, then other logs are added, so I have a very special "thanks" for the FRW guys!

Logs marked "D'Angelo, PA" are from are from a DXpedition to Gifford Pinchot State Park in central PA on 4-7 December 1997 with Rich D'Angelo, Fred Kohlbrenner, & Bob Montgomery.

WGTV TO INVADE 69551?

Mike Folk says that Glenn Hauser on his on line edition of World Of Radio is reporting the religious station WGTV has applied for and is prepared to start testing on 6955 kHz. So, is it time to search for a new frequency?

R.FREE LONDON HOLIDAY ACTIVITY ON 5805: RFL'll be on the air 9 ds, 24 hrs/day, thru the Christmas week, starting Sat, 12/20 & going thru til Sun, 12/28. RFL'll be using 5805 kHz with a power of 80/100 w, altho the engineer is working on getting the power up to 600 watts.

YET MORE QSL DESIGNS FROM RADIO AZTECA'S BRAM STOKER Bram advises that he's designed more QSLs. (1) "The Radio Azteca Hard-Assed Reception Report Review Committee"; (2) "Do Not Dress This Way For A DXpedition"; (3) "The Evil Anti-Stoker", and (4) "Emiliano Zamboni Hands Bram Stoker The Envelope With The Top 10 List".

YET ANOTHER STN SIGNS UP W/PROVIDENCE: Hot on the heels of last week's announcement that Take It To The Limit Radio would be using Box 28413, Providence, Rhode Island, 02908 comes this week's announcement that another new station, will be using Providence. If you hear Hotel California Shortwave, reports can be sent to Box 28413. So what's next? Ecos del Tequila Sunrise? Voice of the Runaway Witchy Woman?

A NEW STATION TO LOOK FOR IN DECEMBER: As the holidays approach, be on the lookout for 6YCSS, which will be a joint effort of Count Whip's Caribbean Sound System and Pig Pen Marley's 6YVOS. Sounds interesting!

CANADA POST GOES BACK TO WORK:

The Canadian government has legislated the striking Canada Post workers back to the job as of Friday, December 5. That means you can send reception reports to the Merlin maildrop and all the American maildropertors (and stations) can now send QSLs to Canadian listeners.
